not sell he would make him (Harker) a present of the dog. The generous Harker would not, however, accept the friendly offer without a reciprocal one, and, as he had offered \$1,600 engaged to give him the profit within a specified time on 1,000 shares of a certain railroad stock. A rapid turn in the market brought the aforesaid stock to an advance of \$11 a share, and that he offered promptly to make over to Stokes for the setter. The speculative young man, however, said "Let it wait awhile; perhaps I may make more yel." Instead of more he market. So for a little while the setter which Mr. Harker prizes so high. Latest and East the Stellest Fastest and Latest and East the Stellest Fastest and Latest and East the Stellest Fastest and East the East the Stellest Fastest and East the Stellest Fastest and East the East the Stellest Fastest and East the East and East and East the East and East the East East East East East East Eas ter which Mr. Harker prizes so highly was worth \$11,000. What a halo of glory encompasses that remarkable dog. Numerous Tests Have Proved

THE FORTUNES OF OUR PRESI-DENIS. The elder Adams left a moderate

ortune at his death.

Jefferson died comparatively poor,
f Congress had not purchased his library at a price far a (20,000,)he would with its value ulty have te close of ept out of bankrus

Mislife.

Madison saved his maney and was comparatively rich. The fortune of his widow was increased by the purchase of his manuscript paper by Congress for \$30,000.

James Monroe, the sixth President, died so poor that he was buried at the expense of his reinitives in a cemptery between Second and Third streets, near the Bowery, in New York.

John Quincy Adams left about \$50,000, the result of industry, prudence, and a small inheritance. He was methodical and economical.

Andrew Lukson left a ballable second as Sold by drongers for york, who will forward them by return mail.

PROMPT ATTENTION. Particular attention also given to Repairing and Job Work. WARREN, OHIO, May 21, 1873-1f THE DANBURY NEWS MAN.

DR. A. TRASK'S

FOR THE CURE OF

INFLAMMATORY DISEASES Dr. Trank was engaged for twenty years in a coarse of experiments upon the medical properties and power of vegetables, separate and combined. At the age of seventy years he succeeded in presenting to the world, as the result of his experiments, a combination of Vegetable curracts, the power of which in removing diseases is unequaled in the annals of Medicine. His discovery consists in a combination of these powerful Vegetable Extracts with Electricity or Engretism in the form of an Cinternat

ment.

Certain, it is, that the remarkable and supercodessied success which has attended its application in the cure of discuses, statup it to once as the greatest discovery of the age, and calls for a trial and close investigation of its reconcilies. properties.

At newer falls, while there remains sufficient life to restore a natural and healthy action to the capillary reseals of the body, and equalize the circulation of the blood. By this means a controlling power is gained over the most malignant forms of disease, which cannot be obtained from any other remody.

Such is the power of this combination, that it penetrates to every portion of the human frame; every bone and muscie, win, nerve and linguises is rearried out and make sensible of its purifying and healing influence. Hence it copes as readily with internal as external disease. AGENTS WANTED FOR THE For Inflammatory Rheumai tam this Ointment is the most complete rand ever required. For Diphtheria or Patrid Sore Larget is unrivaled.

"Lame!" sighed Mr. Partington "Here I have been sufferin' the biga-mics of death for three mortal weeks. First I was seized with a bleedin' phrenology in the hampshire of the brain, which was exceeded by the stoppage of the left ventilator of the heart. This gave me inflammation of the left borax, and now I am sick with the chloroform morbus. There is no blessin' like that of health, parcalarly when you're III.'

Gentility is neither in birth, man-ner, or fashion, but in the mind. A high sense of honor, a determination to take no mean advantage of any body; an adherence to the truth, delicacy and politeness in all dealings with others; dignity, modesty and gentleness in manner, speech and acts, are the essential characteristics of genteel breeding, in either man or

The editor of the Norristown Herald has found out "Why persons can't sleep." It is because "there is can't sleep." It is because there is no accumulation in the organism of the products of oxidation, mainly of carbolic acid, that accumulation, being tavored and controlled by reflex action of the nervous system, which thus protects the organism from exe-cusive exidation, and allows the organism to manifest its normal func-tional activity throughout a succeeding rythmic period.

A Connecticut man has succeeded in getting more than fifteen hundre words on a single postal card. Of course no other State except that which manufactured wooden nutmegs and horn gun flints could furnish the genius required to transmit a lengthy letter from one ond of the course we than a country to the other for less than a penny. The thrift which turns an honest ha'penny exists in the "land of steady habits" to an unwonted de-A Leavenworth photographer has

been explaining the altogether-too-elaborate way in which he procured a "spirit" photograph. He says he first took a picture of Mr. Harris, and ty of this valuable Hair Preparation painted his whiskers out. Then he cut the face out of an old lady's photograph, and pasted Harris' face in.—
He made a negative from this, and then a transparent positive. He next held this positive before a sensitized late in a dark room, and the ghostture was made.

Professor Agassiz has a class of fifty students at work among the rocks, shallows, and reefs, studying natural history without books and by individual search and labor, on Penekese Island, thus nobly utilizing Mr. Anderson's splendid gift. He calls the boys together every morning for a fa-miliar talk, then tells them to ramble bout the island and use their eyes. Every lad has his aquarium and lab-oratory, with all the land and sea beore him.

A new Masonic order, "The Knights of the Red Cross of Constan-tine, the Invincible Order of the Hotine, the Invincible Order of the Holy Sepulcher and St. John of Jerusalem," has just been instituted in Springfield, Mass. The charter comes from the Grand Body in England, and the name selected is "Unity Conclave." Only Knights Templars are eligible to the degrees. Unity Conclave is the second instituted in Massachusetts, the first having been started in Worcester.

An ocean aneedote, apropos of the An ocean ansedote, apropos of the "Inman crime," is related as follows: "Here we are now, within a quarter of a mile of land." was the joyful announcement made by the captain of an ocean steamer to his grumbling passengers. "Where? Which way is it?" were the eager exclamations which followed. "Anywhere down below there," said the captain, pointing toward the bottom of the sea.—
"The lead gives us just 220 fathoms "The lead gives us just 220 fathoms of water, and the land comes shap up against the brine." Just as the City of Washington came "sisp up W. A. CRAPT, sgainst Guil Rock.

which is due to merit alo can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfect OR PADED HARR to its youthful color, making it soft, lustrous, and silken The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic erties, prevents the hair from fall out, as it stimulates and nourished the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical Harn Dunssing ever used, as it requires fewer applications, and gives the hair a sple sppearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPA-EATION for its intended purposes."
